Muhammad Al Ghorizmi Muttaqin

Brebes, Indonesia | +6289529893523 | alghorizmi.m@gmail.com | Linkedin | Web Portofolio

PROFILE

Data Analyst with a strong background in Informatics Engineering and proven professional experience in driving business performance through data driven strategies. Skilled in end-to-end data workflows, statistical analysis, and creating interactive visualizations using tools like Tableau, Power BI, and Google Data Studio. Demonstrated ability to optimize operational efficiency and solve complex business problems such as successfully reducing delivery return rates by translating large datasets into actionable insights.

SKILLS

Software	:	Tableau, Power BI, Google Looker Studio, Spreadsheet
Expertise (Hard Skills)	:	Data Analysis, Machine Learning, Data Visualization, SQL, Programming
Soft Skills	:	Leadership, Project Management, Communication, Analytical Thinking, Problem Solving, Teamwork
Interests	:	Data Analyst, Data Scientist, Data Engineer, Business Analyst, Technology

DATA EXPERIENCE

Marketing Data Analyst *Jun 2026 – Aug 2026*
PT. Parikesit Digital Marketing and Creative

- Consolidated and validated performance data from 40k+ marketing data to ensure data accuracy for monitoring and reporting.
- Built interactive dashboards using Data Studio and performance reports to visualize KPIs and support business Performance evaluation.
- Performed statistical analysis using T-Test and translated data into actionable insights that supported marketing team and strategic decision making.
- Successfully reduced the return rate by 4% by evaluating regional delivery data and courier efficiency via Google Data Studio.

Junior Data Analyst Intern *Feb 2026 – Jun 2026*
PT. Vinix Seven Aurum

- Executed end-to-end data analysis workflow, including data collection (survey design & secondary data), cleaning, transformation, and exploratory data analysis (EDA) to uncover patterns and insights.
- Processed and prepared datasets by handling missing values, outliers, and inconsistencies using Excel and spreadsheet techniques.
- Developed interactive dashboards and data visualizations using Tableau and Looker Studio to support business monitoring and decision-making.
- Applied SQL and basic statistical analysis, and leveraged AI tools to accelerate data exploration and deliver actionable insights through data storytelling.

Data Analyst Intern (Project-based Internship by Rakamin) *Oct 2025 – Nov 2025*
Kimia Farma (PT. Kimia Farma, Tbk)

- Develop a comprehensive business performance review for PT Kimia Farma by analyzing data for the period 2020-2023.
- Performing an end-to-end ETL (Extract, Transform, Load) process, starting from importing, cleaning, to loading 4 main datasets (transactions, inventory, branches, products) into the Google BigQuery platform.
- Design and execute complex SQL queries to combine data, create calculated metrics (such as net sales & net profit), and implement business logic to produce one master analytical table.
- Design and build an interactive performance analytics dashboard to visualize revenue trends, regional performance, and product analysis.
- Identifying crucial business insights. Key outcomes of this analysis include identifying West Java as a core market, identifying operational improvement opportunities in high-performing branches, and formulating strategic recommendations for product cross-selling strategies to increase revenue.

PROJECTS

- **Hotel Operational Dashboard for Vinix7**, Data Analyst Project
- **HR Attrition Analysis for Vinix7**, Data Analyst Project

- **Hospital Operational Dashboard for Vinix7**, Data Analyst Project
- **Campaign Statistics Analysis for Vinix7**, Data Analyst Project
- **Final Project Virtual Intern Big Data Analytics Kimia Farma x Rakamin Academy**, Data Analyst Project
- **Stunted Prediction**, Data Science Project
- **Work Order Performance Analysis**, Data Analyst Project
- **Country Data Analysis**, Data Analyst Project
- **NLP | Detecting Positive and Negative Sentiment in TikTok Comments on the "UU TIPIKOR"**, Data Science Project

EDUCATION

Universitas Dian Nuswantoro *Sept 2022 – Feb 2026*
Informatics Engineering, GPA – 3.80/ 4.00

- Joined the Informatics Engineering Student Association.
- Participated in Program Penguatan Kapasitas Organisasi Kemahasiswaan (PPKO Kemendikbud).
- Became a Core Team Member for the Google Developer Group on Campus at Dian Nuswantoro University.
- Published scientific journal (SINTA 3 indexed).

PROFESSIONAL CERTIFICATION

- **Associate Data Scientist Competency Certification, BNSP (LSP UDINUS)** *Issued, 2026*
- **Databases and SQL for Data Science with Python, IBM** *Issued, 2025*
- **Data Visualization with Python, IBM** *Issued, 2025*
- **Data Analysis with Python, IBM** *Issued, 2025*
- **Getting Started with Deep Learning, Nvidia** *Issued, 2025*
- **Data Analyst Level Intermediate, ITBox** *Issued, 2025*
- **Data Analyst Level Basic, ITBox** *Issued, 2025*

ORGANIZATION

Head of Creative Media (Core Team) *Oct 2024 – Sep 2025*
Google Developer Group on Campus UDINUS

- Led creative team and managed content strategy

Head of Information and Communication Division *Sep 2024 – Sep 2025*
Himpunan Mahasiswa Teknik Informatika UDINUS

- Managed multiple divisions and executed strategic programs

Head of Department Information Media *Sep 2023 – Sep 2024*
Himpunan Mahasiswa Teknik Informatika UDINUS

- Led team and improved social media engagement
- Led and managed 48 members and achieved outstanding results, including attracting 15 Web Developer teams and 36 LCC participants to participate in ITC 2024.
