PROFILE

A final-year Informatics Engineering student at Dian Nuswantoro University, specializing in **data science** and **data analysis**. I am skilled in research, analytical thinking, and project management. I am proficient in Python, SQL, spreadsheet, and Power BI for data analysis and visualization. I have a strong interest in pursuing a career in data analysis and data science, focusing on transforming data into valuable insights.

EDUCATION

University of Dian Nuswantoro Semarang

Sept 2022 – Present

Undergraduate Informatics Engineering, GPA 3.79 / 4.00

- Joined the Informatics Engineering Student Association.
- Participated in Program Penguatan Kapasitas Organisasi Kemahasiswaan (PPKO Kemendikbud).
- Became a Core Team Member for the Google Developer Group on Campus at Dian Nuswantoro University.

DATA EXPERIENCE

Data Analyst Intern ([Project-based Internship by Rakamin](#))

Oct 2025 – Nov 2022

Kimia Farma (PT. Kimia Farma, Tbk)

- Develop a comprehensive business performance review for PT Kimia Farma by analyzing data for the period 2020-2023.
- Performing an end-to-end ETL (Extract, Transform, Load) process, starting from importing, cleaning, to loading 4 main datasets (transactions, inventory, branches, products) into the Google BigQuery platform.
- Design and execute complex SQL queries to combine data, create calculated metrics (such as net sales & net profit), and implement business logic to produce one master analytical table.
- Design and build an interactive performance analytics dashboard to visualize revenue trends, regional performance, and product analysis.
- Identifying crucial business insights. Key outcomes of this analysis include identifying West Java as a core market, identifying operational improvement opportunities in high-performing branches, and formulating strategic recommendations for product cross-selling strategies to increase revenue.

ORGANIZATION

Head of Creative Media (Core Team)

Oct 2024 – Sep 2025

Google Developer Group on Campus UDINUS

- Leading a team of 3 members.
- Creating design concepts & designs for social media publications.
- Reviewed and approved all visual assets for publication to ensure alignment with brand guidelines and campaign objectives.

Head of Information and Communication Division

Sep 2024 – Sep 2025

Himpunan Mahasiswa Teknik Informatika UDINUS

- Led two divisions under the Department of Media, Information, and Public Relations, ensuring smooth coordination and goal achievement.
- Implemented and managed 3 main programs within the field, driving successful execution and measurable outcomes.
- Developed creative design concepts for social media content to enhance audience engagement and brand presence.
- Reviewed and ensured the quality and accuracy of publication content before upload, maintaining consistency with brand guidelines.

Head of Department Information Media

Sep 2023 – Sep 2024

Himpunan Mahasiswa Teknik Informatika UDINUS

- Successfully led and managed a team of 7 members, ensuring effective task delegation and project completion.
- Designed engaging and creative social media publication materials to strengthen brand visibility and audience engagement.
- Reviewed and ensured the quality and accuracy of publication content before upload, maintaining consistency with brand guidelines.

PROJECTS

- **Final Project Virtual Intern Big Data Analytics Kimia Farrma x Rakamin Academy**, Data Analyst Project
- **Stunted Prediction**, Data Science Project
- **Work Order Performance Analysis**, Data Analyst Project
- **Country Data Analysis**, Data Analyst Project
- **NLP | Detecting Positive and Negative Sentiment in TikTok Comments on the "UU TIPIKOR"**, Data Science Project

PROFESSIONAL CERTIFICATION

- **Databases and SQL for Data Science with Python**, IBM *Issued, 2025*
- **Data Visualization with Python**, IBM *Issued, 2025*
- **Data Analysis with Python**, IBM *Issued, 2025*
- **Getting Started with Deep Learning**, Nvidia *Issued, 2025*
- **Data Analyst Level Intermediate**, ITBox *Issued, 2025*
- **Data Analyst Level Basic**, ITBox *Issued, 2025*

KEMAMPUAN

Software	: Tableau, Power BI, Google Looker Studio, Spreadsheet
Expertise (Hard Skillls)	: Data Analysis, Machine Learning, Data Visualization, SQL, Programming
Soft Skills	: Leadership, Project Management, Communication, Analytical Thinking, Problem Solving, Teamwork
Interests	: Data Analyst, Data Scientist, Data Engineer, Business Analyst, Technology
